Beautifully engineered boat
fendering solutions.

PARKER

WELCOME TO WILKS

Trusted by leading global boat builders.

Wilks is one of the world's leading marine fendering and rub rail products.

Choose from a wide range of specialist profiles that can help to protect boats of every size. Our popular Click, Bump and Ali (Aluminium) ranges are easy to install and look great.

Wilks Fendering has been produced for over 50 years in the UK. It is trusted by customers and industries worldwide to provide quality products to tackle various problems, from preventing damage to yachts to protecting checkouts in supermarkets.

CLICK

CLICK fendering is a simple but extremely effective leisure boat fendering system. Quick and easy to fit, Click has no unsightly fixings.

AVAILABLE IN FOUR SIZES

150mm
CLICK 150

BUMP!

BUMP! fendering offers simple installation for many different types of boats and are able to handle curves better than a traditional D-Fender. Our Traditional option is supplied in “factory finish” ready for sanding.

BUMP! is available in both 65mm and 53mm sizes, and comes in black, white, or traditional finish (53mm only available in traditional).

BUMP! 65

BUMP! 53

Wilks Ali range of aluminium profiles provide a classic fendering solution whilst maintaining an elegant appearance. Aluminium profiles are straightforward to install and maintain.

D PROFILES

The Wilks range of 'D' fender profiles provide an ideal and simple fendering solution. The 'D' fender design delivers a high level of protection, making them well suited for busy marine environments, boats and pontoons.

PVC 50

PVC 49

PVC 898

PVC 632

PVC 276

PVC 72

RIGID PVC

WITH STAINLESS STEEL INSERT

Stainless steel provides a contemporary look, well suited to luxury boat design.

PVC 1881R

PVC 2300R

RIGID PVC

A modern alternative to our classic aluminium range, Rigid PVC fendering is great if you have slightly more challenging curves on your boat. Depending on the profile you have chosen, you have the option of PVC or a Stainless Steel insert.

PVC 180

PVC 370

PVC 1472R

PVC 1417R

PVC 1613R

FLEXIBLE PVC WITH INSERT

Wilks Flexible PVC profiles are a more malleable version of the popular Rigid PVC range. Made with a slightly softer material, Flexible PVC profiles are adept at handling curves and contours with precision and ease. This range is completed with a choice of colourful PVC inserts.

PVC 168

U PROFILES

The 'U' fendering range is designed to fit over a flange style hull join, in order to cover the vulnerable area. The wide array of 'U' profiles are available in various shapes, allowing for seamless integration with existing rivets or bolts on the flange.

PVC 4/5

PVC 6/2

PVC 204

PVC 205

PVC 40

PVC 1/5

B PROFILES

'B' profiles are a change of pace from traditional 'D' fendering. Both are adept at handling more demanding marine environments, but their different shapes can completely change the visual style of the boat's design.

Beautifully engineered synthetic decking.

FLEXITEEK TRIMS

Complement your Flexiteek synthetic decking with our range of Flexiteek Trims.

LOOKS AND FEELS LIKE WOOD

The Flexiteek Trims range is designed to both look and feel like wood. Once sanded, the finished appearance produces an attractive woodgrain effect whilst offering all the qualities of PVC to provide the ultimate alternative to wood. It also provides the sought-after low maintenance qualities of Flexiteek synthetic teak.

AVAILABLE IN ALL COLOURS

Each profile is available un-sanded in the same colour options as Flexiteek synthetic teak, providing the ultimate uniform look to your craft.

Some of the colour options require a reasonable minimum order.
